

*Leading Integrated & Geosolutions provider
for the future of the Energy Industry*

Polaris Integrated & Geosolutions Ltd

ENGINEERING SUPPORT SERVICES | PROCUREMENT | CIVIL CONSTRUCTION | PIPELINE
FABRICATION, CONSTRUCTION, INSTALLATION & MAINTENANCE | GEOPHYSICAL
SURVEY | MARINE SURVEY | GEOTECHNICAL INVESTIGATIONS | GEOSPATIAL/LAND
SURVEY | INDUSTRIAL WATER DRILLING

3D LASER SCANNING & MODELLING

About Us

Polaris Integrated and GeoSolutions Limited was established in 2004 to attain a leading market position in Integrated Services and Geosolutions.

Our integrated solutions concentrate on Engineering, Procurement, and Construction. This includes Asset Management and Integrity Survey, Surface facilities such as Pipeline Construction, Facility (Steel Fabrication), and Civil construction Works such as Access Roads and Location Preparation.

Our Geosolutions service is focused on the Site Characterization (Geotechnical, Geosciences, Geophysical, and Geospatial surveys) of the Earth's surface, subsurface, and rock beneath. We specialize in acquiring, processing, and analysing data related to these areas. Based on our research, we offer expert advice for the energy industry, mining sector, and other civil engineering structures.

As an indigenous Integrated and GeoSolutions company, we have gained significant acclaim for our expertise in Swamp, Land, and Offshore operations. We have successfully executed numerous projects within the Niger Delta region and beyond, with a steadfast commitment to optimizing local content in Nigeria to drive value creation and employment opportunities.

Our operational headquarters is situated in Port Harcourt.

PIGL at a Glance

Our management and staff have cumulative working experience spanning over 200 years, boasting a reputable track record for delivering exceptional earth solutions and support services in the Nigerian and West African energy industry.

We firmly acknowledge that success hinges upon the consistent provision of high-quality services. To ensure this, we leverage our reliable and efficient service network consisting of associate and affiliate companies, as well as our motivated Nigerian workforce.

OUR MANAGEMENT SYSTEM

We run an Integrated Management System for Quality and Occupational Health and Safety

- OH&S- ISO 45001:2018
- QMS-ISO 9001:2015

ENVIRONMENT

- Our company is fully compliant with state environmental regulations

CERTIFICATION BODY

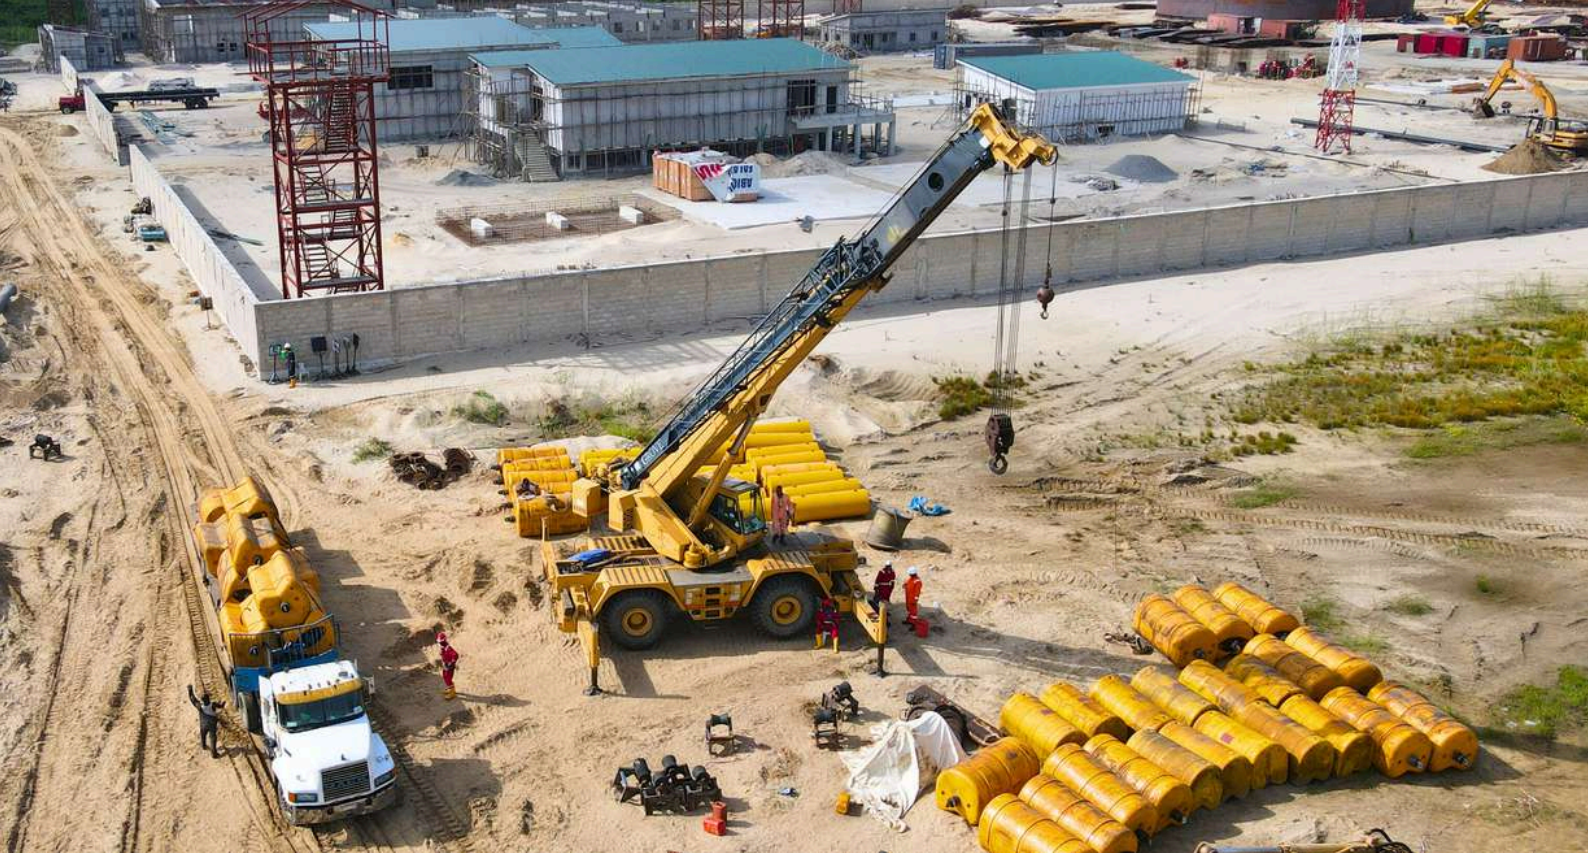

- ISO 9001:2015 and ISO 45001:2018 accredited by Equal Assurance

FACILITIES & EQUIPMENT

Our Vision

To become the Leading Integrated & Geosolutions provider for the future of the Energy Industry in Sub-Saharan Africa.

Our Mission

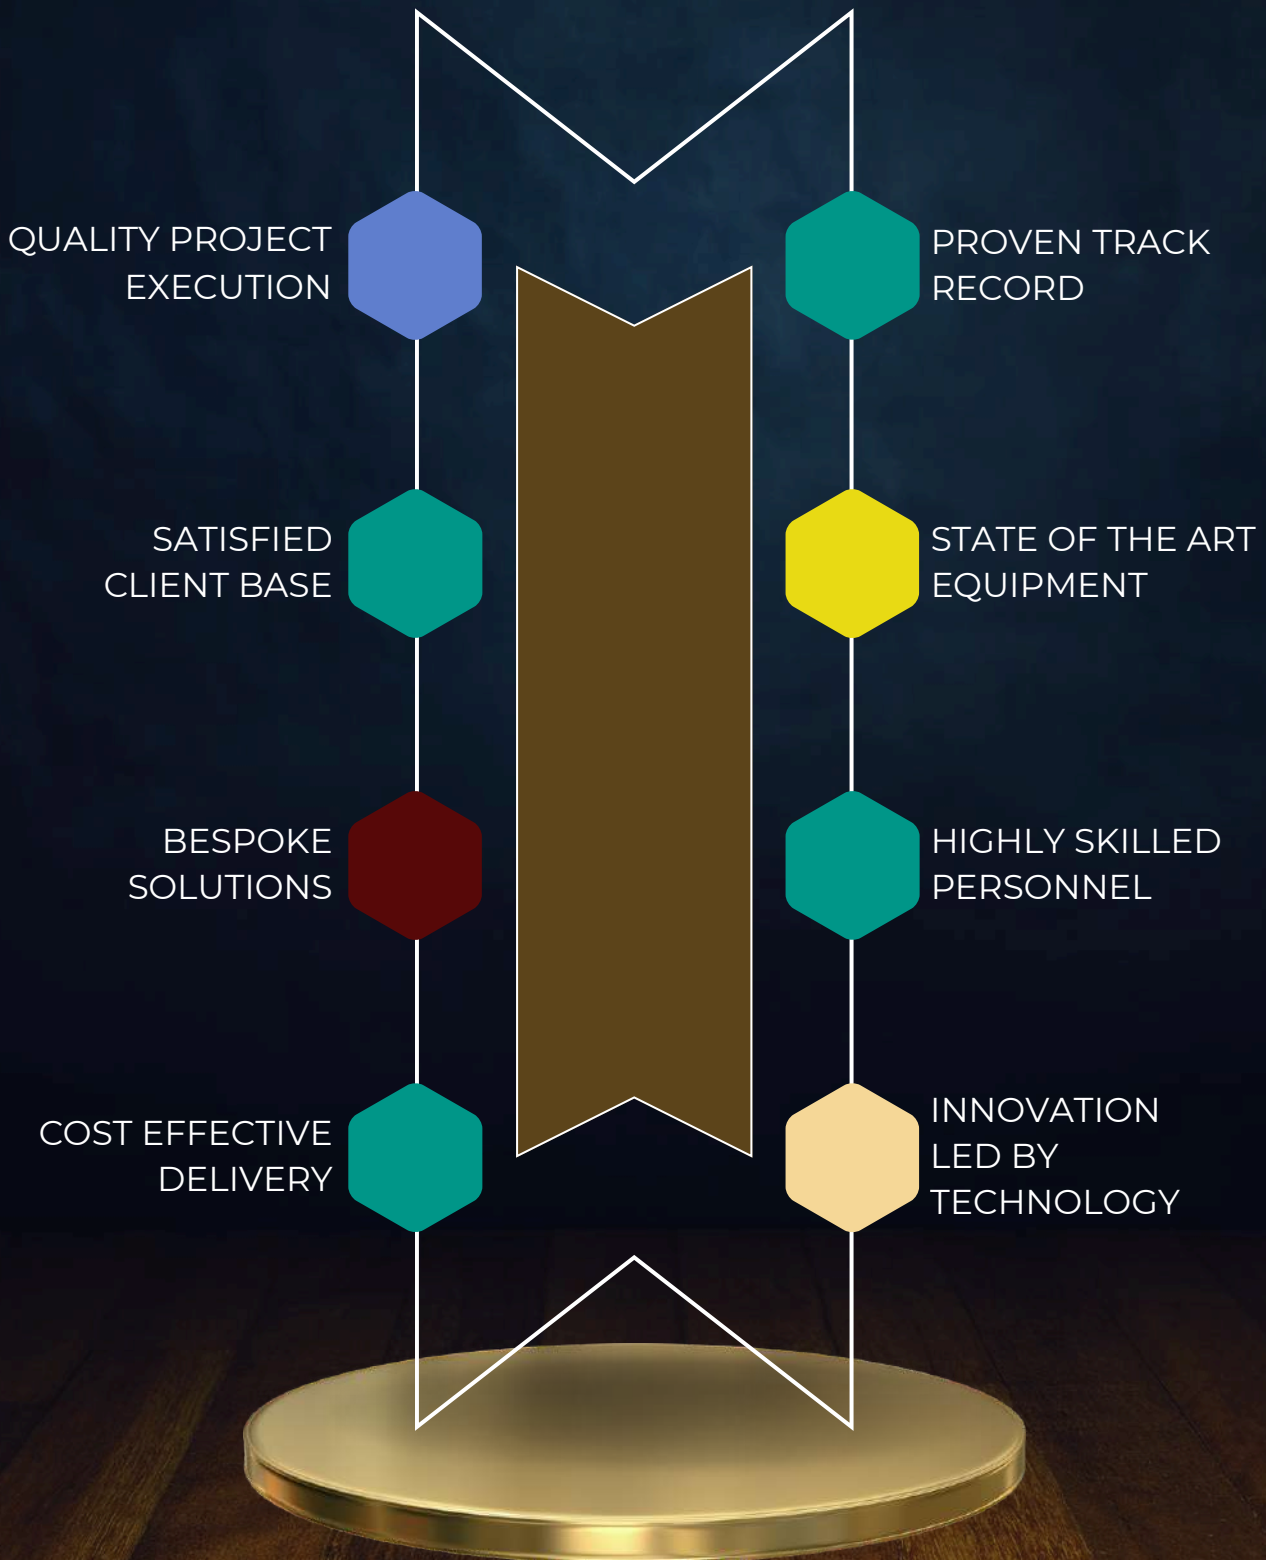

We are focused on providing top quality services on information related to the earth by employing advanced technology highly specialised staff, safe and environment friendly systems to create value for our customers, employees, stake holders and Host communities.

Why Choose Us

Our primary focus is on delivering top-quality outcomes, ensuring timely project completion, and upholding the highest safety standards to prioritize the satisfaction and well-being of our clients, employees stakeholders and host communities.

We offer cost-effective solutions that maximize your return on investment without compromising on quality. With our team of experienced professionals who bring expertise, innovation, and a personalized approach to each project, we have a proven track record of successful ventures and enduring client partnerships. With PIGL, you stay at the forefront of the industry with our state-of-the-art solutions.

Fortified by our key **Strengths**

“

The earth's surface is constantly changing as a result of processes deep within the planet's interior as well as a complex set of interactions between the solid earth, atmosphere, seas, hydrosphere, and biosphere. As a result, Earth experiences complexities such as earthquakes, volcanic eruptions, destructive floods, landslides, and other natural hazards.

These complex and dynamic processes make constructing & maintaining structures highly challenging.

Understanding these changes poses a deep scientific challenge, but meeting that challenge helps to yield enormous practical benefits.

At Polaris, we are proud to provide Geo-Intelligence & asset integrity solutions that contribute to reducing project-related risks, complexities and liabilities in infrastructure developments.

”

A close-up, low-angle shot of a welder working on a large blue industrial structure. The welder is wearing a bright orange protective suit with reflective silver stripes on the sleeves, a black welding mask, and red leather gloves. They are holding a welding torch, and a bright white flame is visible at the point of contact with the metal. A white, ribbed flexible hose is connected to the structure. The background shows a clear blue sky and some industrial equipment.

OUR SERVICES

FULL SITE CHARACTERIZATION | 3D LASER SCANNING
PIPELINE CONSTRUCTION & INTEGRATED SERVICES
INDUSTRIAL BOREHOLE WATER DRILLING

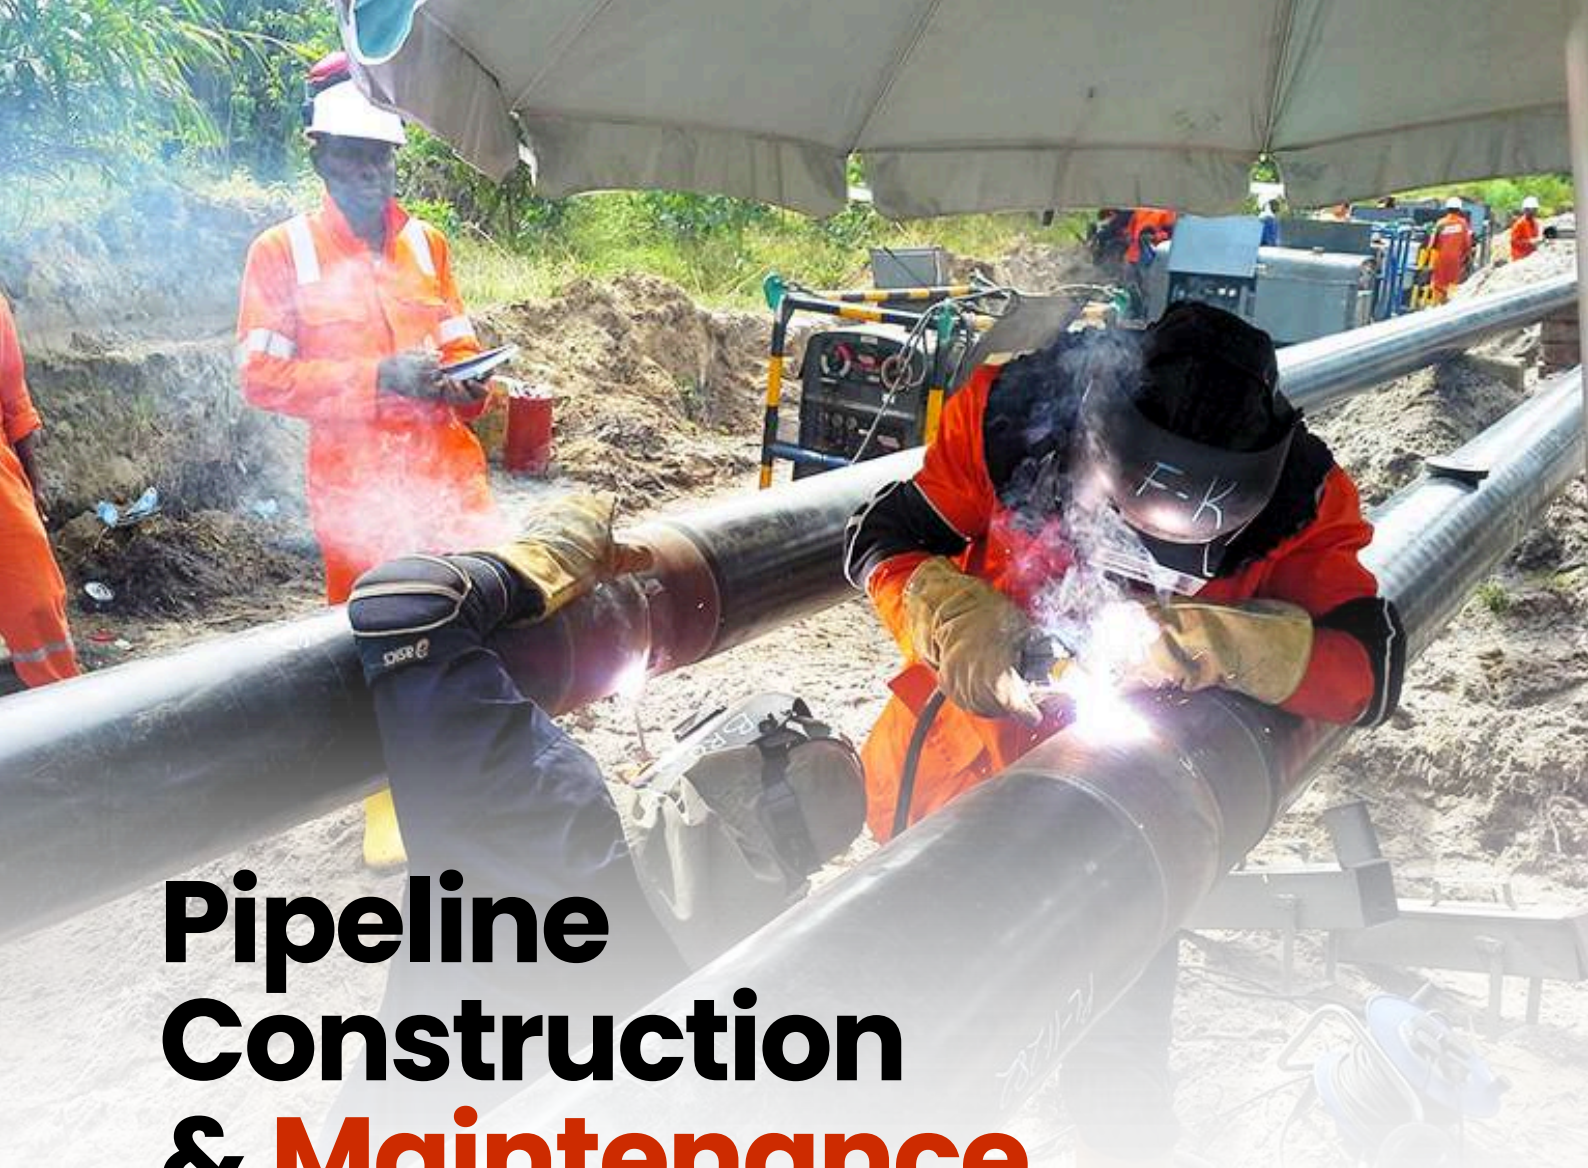

**INTEGRATED
SERVICES**

A large black truck is parked on a dirt construction site, loaded with several large pipes wrapped in blue tarp. Several workers in orange and blue uniforms are standing around the truck. In the background, there is a red metal structure and a concrete wall.

Project Management & Integrated Services

- Industrial Water Drilling
- Procurement & Haulage of Pipes
- Manpower Supply
- Procurement & Construction Support

Pipeline Construction & Maintenance

- Pipeline Installation
- Site Preparation
- Welding and Fabrication
- Trenching and Excavation
- Coating and Insulation
- Quality Control and Testing
- Pre-Commissioning
- Pipeline Maintenance and Repair
- Safety and Compliance
- Project Management
- Hydrostatic Testing
- Cathodic Protection

Civil , Foundations & Construction Works

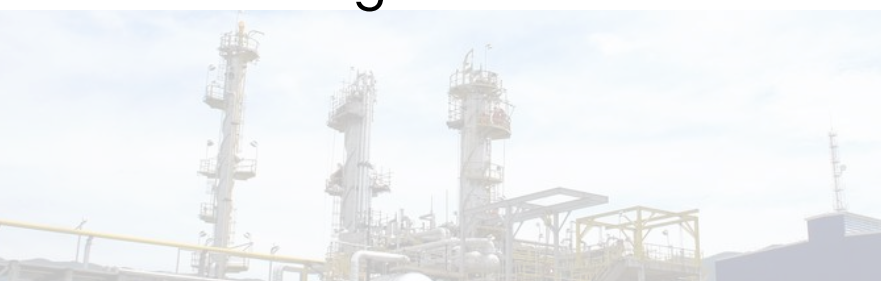

- Early Works & Site Preparations
- Foundation for Facility Structures
- Construction of Cellar Pits
- Pilling Works
- Location Preparation
- Soil Stabilization & Improvements
- Road Works
- Drainages
- Grouting
- Trenching
- Dredging

Reality Capture

- Asset Condition & Integrity Survey
- Inspection Services
- Digital Twin
- 3D Mapping, Rendering & Modelling
- Laser Scanning
- Unmanned Aerial Vehicle
- Virtual Reality/Remote Facility Inspection Online
- As-Built Survey
- Design Verification & Modification

SOME EXECUTED PROJECTS

INTEGRATED SERVICES

Pipeline Laying

**PROJECT MANAGEMENT & PIPELINE LAYING OF 20" *
2KM ONSHORE PIPELINE & LOADING SYSTEM.**

Industrial Water Borehole

SIRI GLOBAL 2X INDUSTRIAL WATER BOREHOLE @120M

NDDC

Niger Delta Development Commission
...Determined To Make A Difference

Access Road & Location Preparation

**PROJECT MANAGEMENT & CONSTRUCTION OF 1.2KM STREET
ROAD OF IDIGE(0.570KM) & UDO STREET(0.630KM) IN UROMI.
ESAN NORTH EAST LGA, EDO STATE**

AKK – Pipeline Site Characterization

PROJECT MANAGEMENT & SUPERVISION OF SURVEYING & GEOTECHNICAL INVESTIGATION OF 40" X 311M MAINLINE FROM BVS 12 TO KANO (AKK) GAS PIPELINE PROJECT (LOT 3+LOT 2B)

Pipe Procurement

AMT34/NPDC/NDWESTERN/NDPR
PROCUREMENT & HAULAGE OF 6" SCHEDULE 120 3LPE
COATED LINE PIPES TO UGHELI AXIS

3D LASER SCANNING

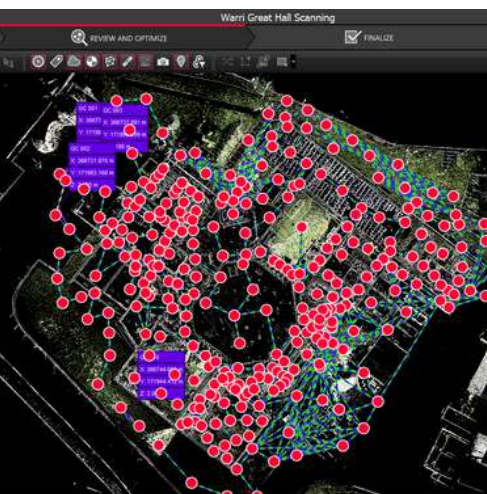

3D LASER SCANNING AND UTILITY DETECTION
OLO FLOW STATION

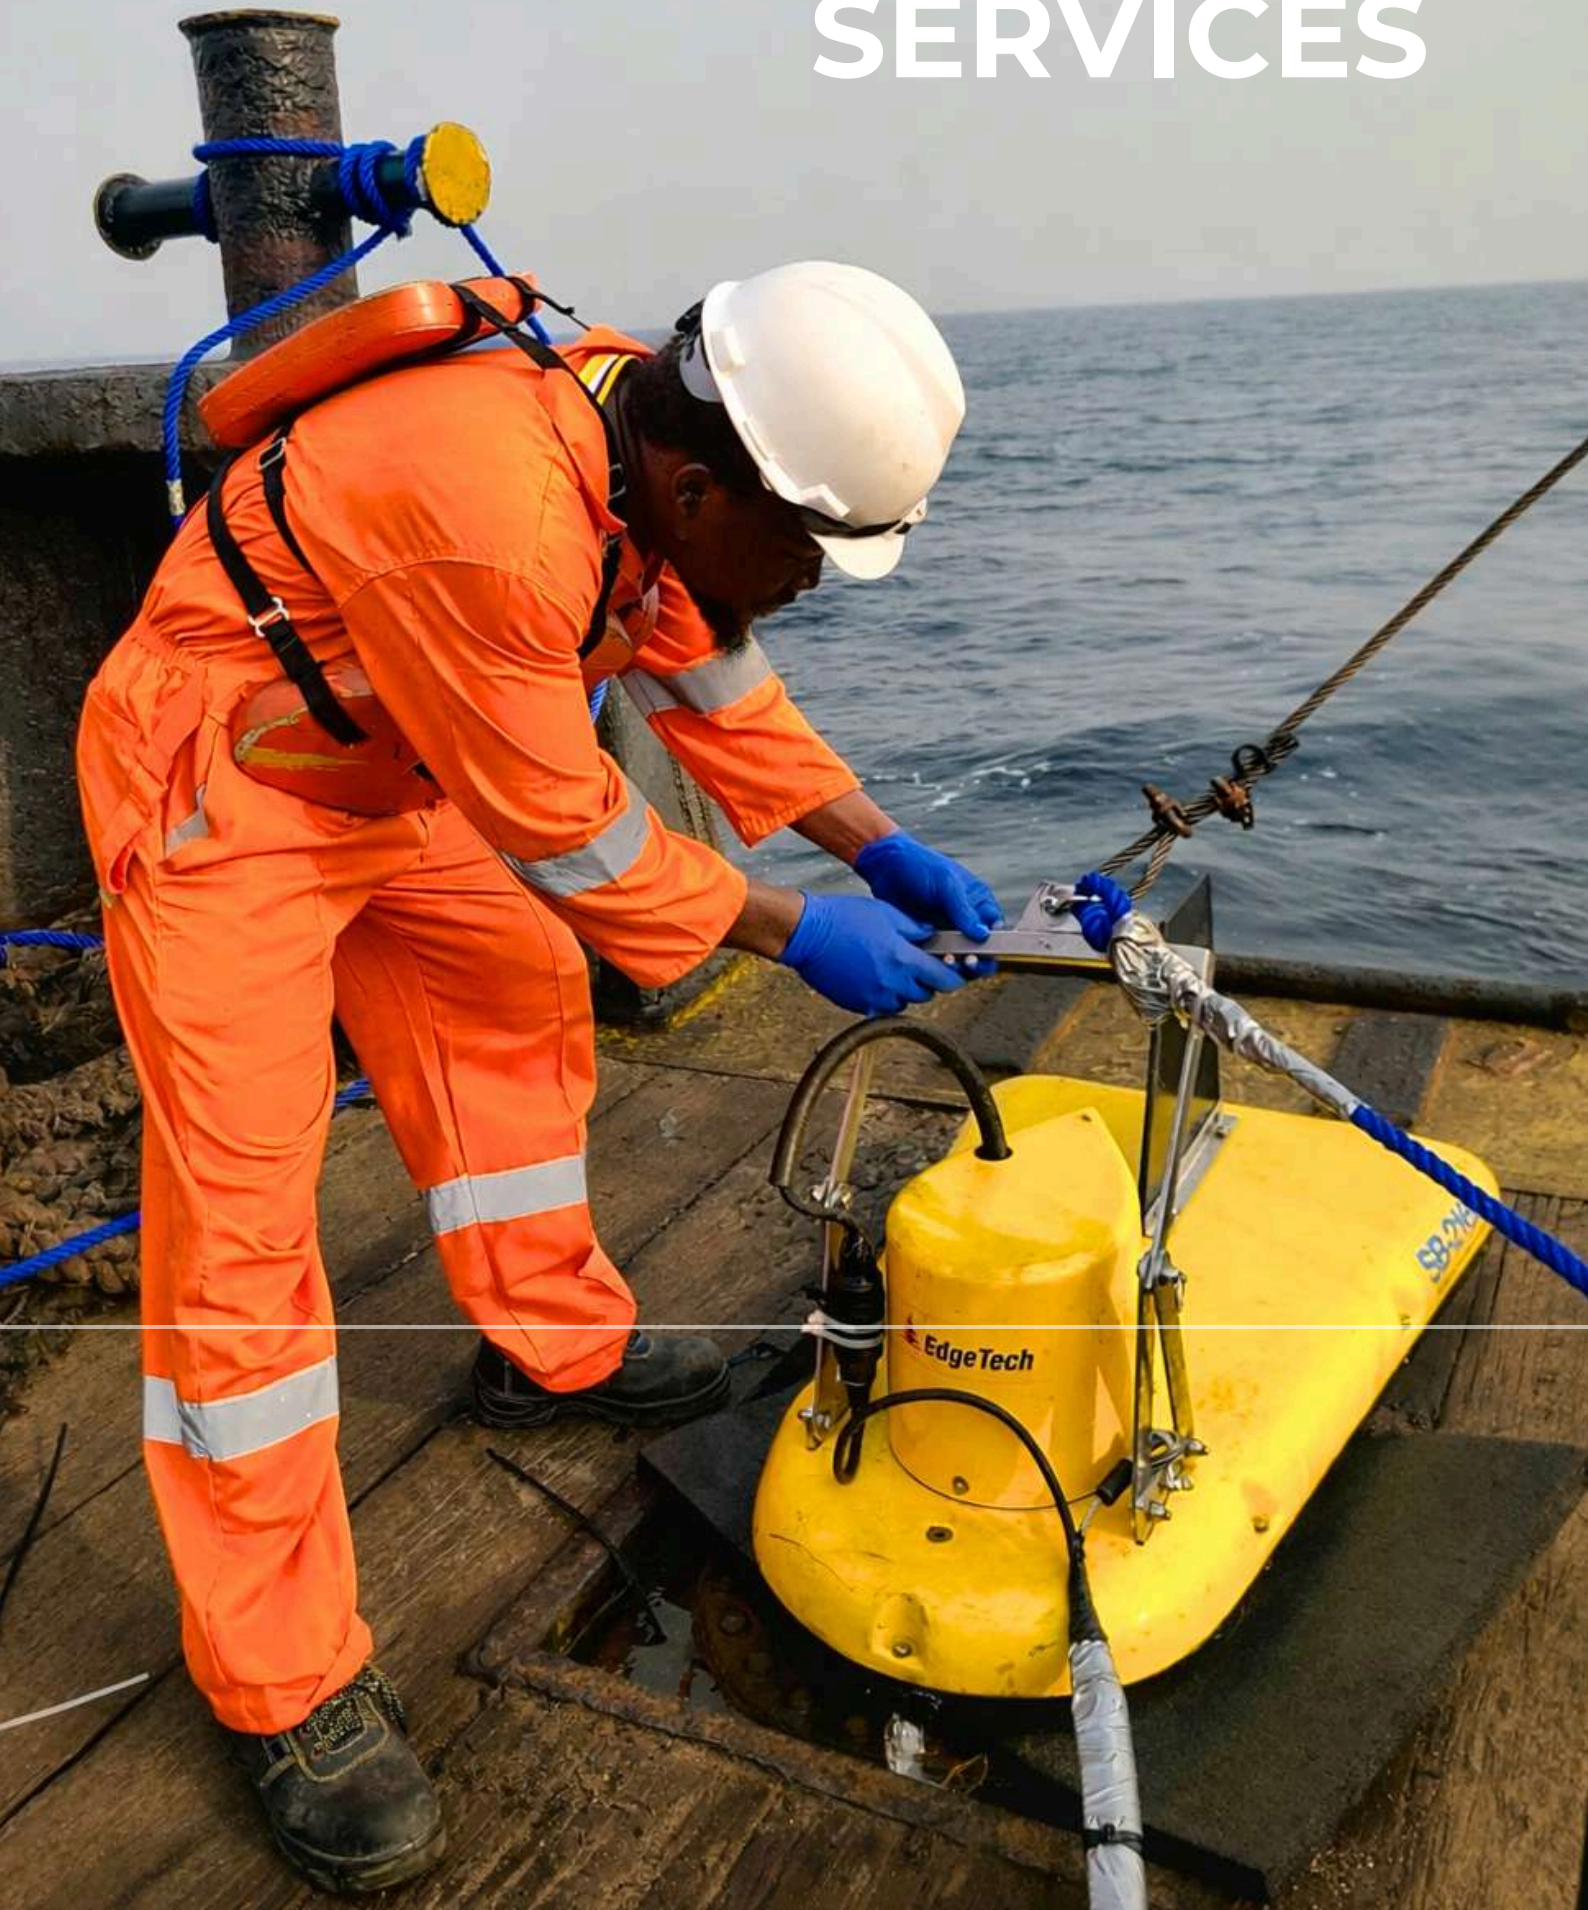

3D LASER SCANNING

3D LASER SCANNING AND MODELLING OF
GREAT HALL FACILITY, WARRI.

GEOSOLUTION SERVICES

Site Characterization

- Geophysical Survey (Land & Marine)
- Geotechnical Survey
- Geospatial Services
- Environmental Survey
- Positioning & Dimension Control

Geospatial Survey

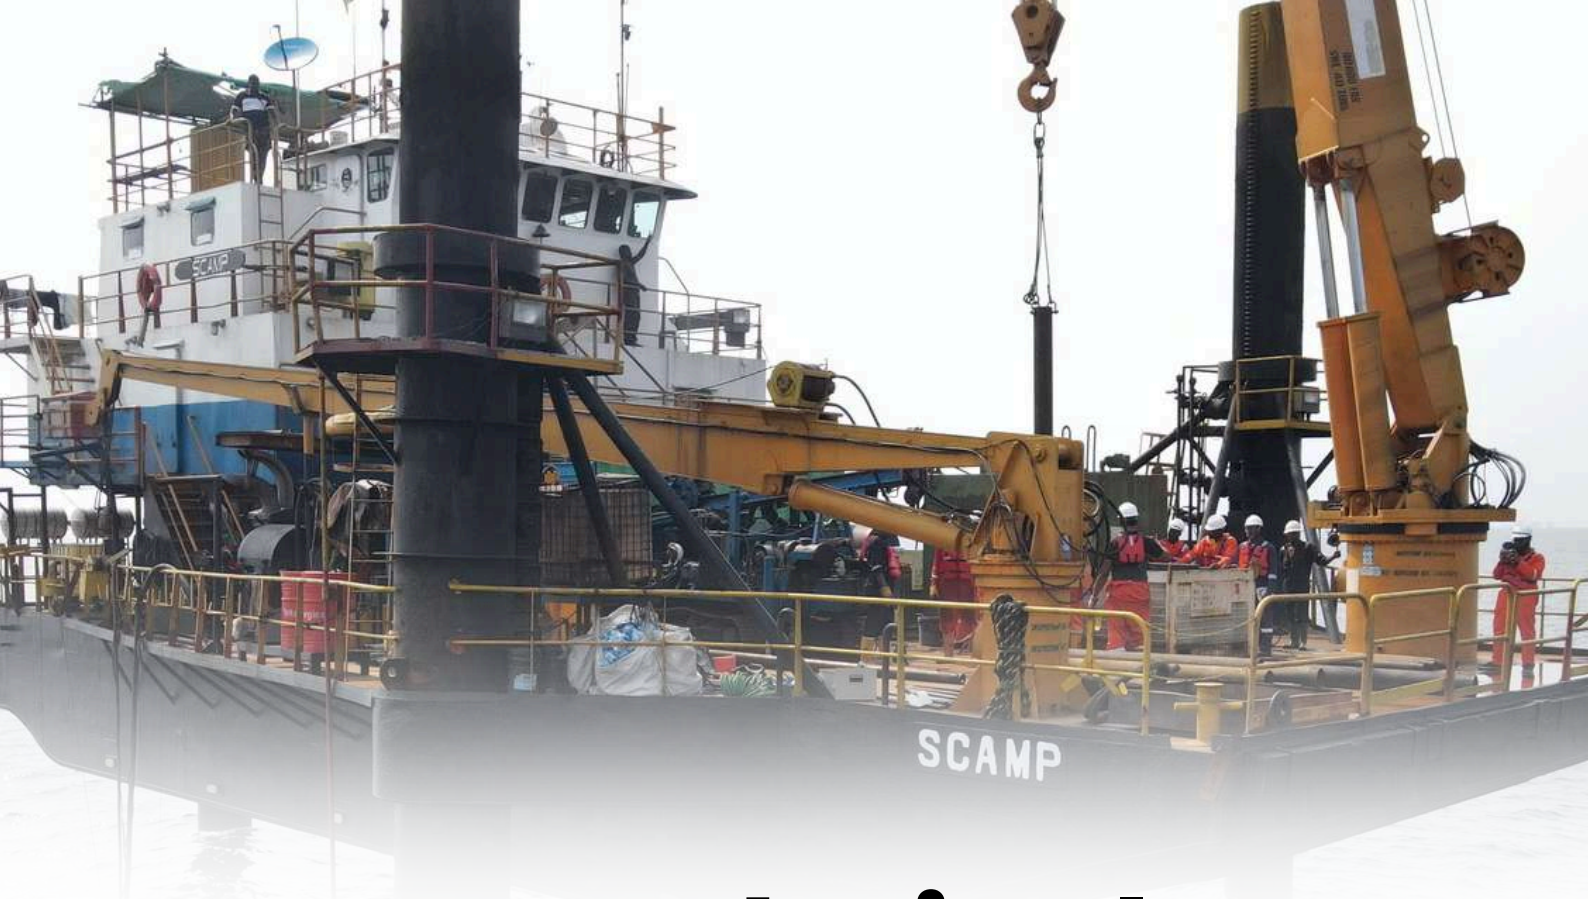

- Topographic Survey
- Engineering Survey
- Cadastral & Layout Survey
- Boundary & Lease Dispute Survey
- Precision Setting Out (Stake Out Survey)
- Route(road) Survey and Mass Computations
- Geodetic Survey
- Precise Point Positioning
- Right of Way Survey (Pipeline)
- Construction Site Survey
- Mapping & Aerial Survey
- Land Information System
- Geographic Information System

GeoPhysical & Marine Survey

- Pipeline Detection Offshore
- Fiber Optics/Umbilical Detection
- Seabed Profiling
- Site & Pipeline Surveys
- Debris Survey
- Bathymetric Survey
- Jetty Harbor and Offshore Hydrographic Survey

GeoTechnical Survey

- Deep Borehole Drilling
- Shallow Borehole Drilling
- Piezometer Installation
- Insitu Test
- Cone Penetrometer test
- Standard penetration test
- Pile Foundation Analysis
- Seabed Investigation
- Onboard Laboratory Testing

Subsea, ROV Inspection & Innovative Technologies

- Underwater Inspection
- Search Recovery

Environmental Survey

- Environmental Impact Assessment Studies
- Environmental Baseline Studies
- Environmental Impact Assessment
- Dredging Work
- Sweeping Work
- Sand fill and Stock Poles
- Sand Search

Dimension Control & Positioning

- Rig move & Positioning
- Locating Plugged and Abandoned Well
- Blue Peg & Well Fix Positioning
- Offshore Construction Support & Pipelay
- Jacket Installation
- Barge Positioning, Anchor Handling & Tug Management System

Laboratory Services

- Laboratory Test and Monitoring services
- Pile Load Test
- Plate Bearing Test
- Unconsolidated Undrained Triaxial Test
- Oedometer Test
- Unit Weight
- Specific Gravity
- Atterberg Limits
- Direct Vane Shear Test
- Thermal Conductivity
- Hydrometer
- Soil PH
- Specific Gravity
- Sieve Analysis
- Permeability Test
- Chemical Test

SOME EXECUTED PROJECTS

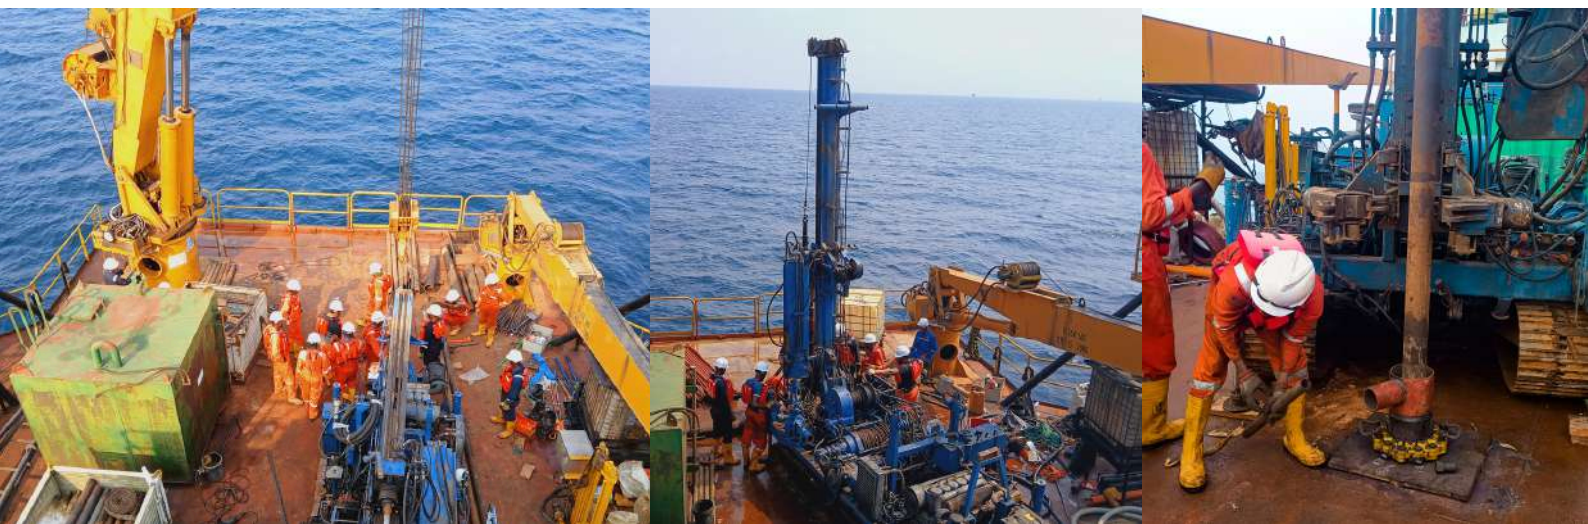

GEOSOLUTION SERVICES

Offshore Site Characterization – OceanGate Engineering Oil & Gas LTD

GeoTechnical/Bathymetric Survey And EIA for
Udara Field

Provision of GeoTechnical Survey @ PPL-260 Tskelewu – Sahara ENL

Geotechnical Investigation Tskelewu 1 BH, 2
TP, 4 CPT

HI Offshore To Bonny (OTB) Development Project

Confirmatory Geotechnical Investigation

KE field Survey & GeoTechnical Investigation – Xenergi LTD & Siri Global Investment & Consultancy

Site Characterization , GeoTeachnical &
Topographic Survey of 18Km ROW, Early
Processing Facility & Camp Site

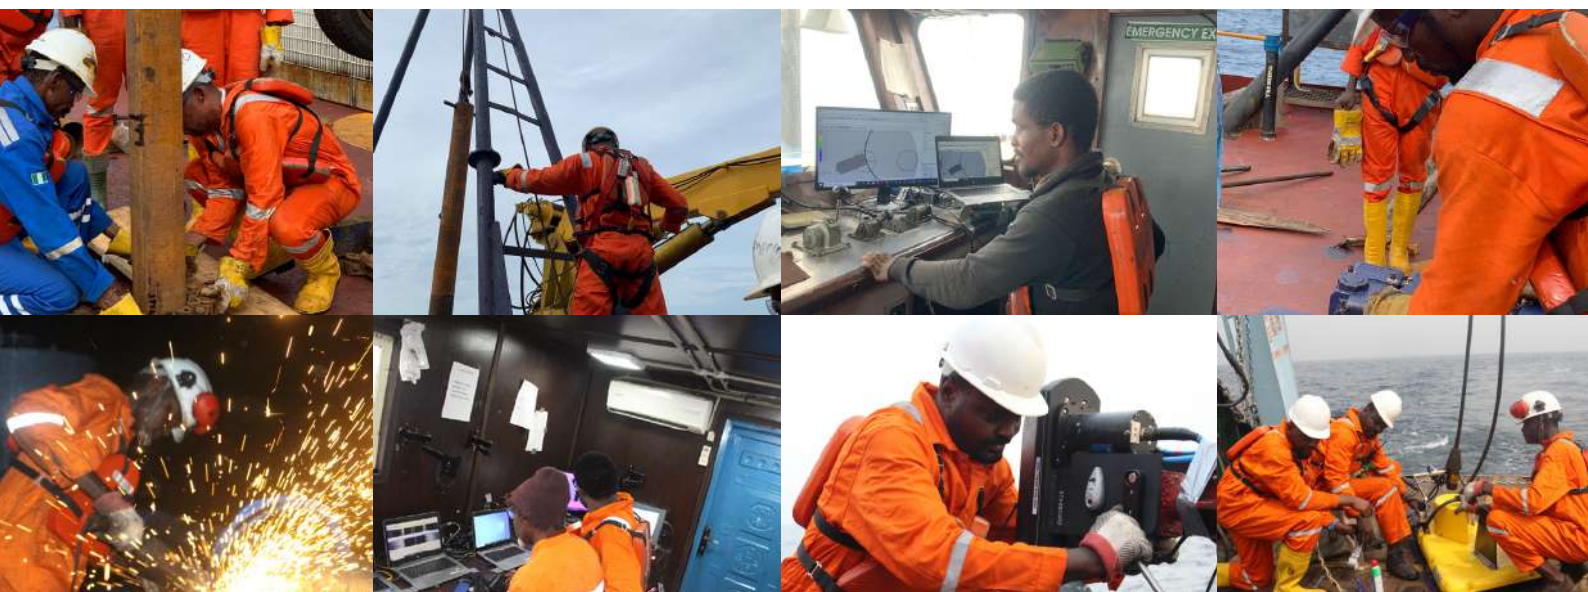

Ibom Offshore Site Characterization

ENVIRONMENTAL | GEOPHYSICAL /MARINE SURVEY |
ROV INSPECTION | GEOTECHNICAL INVESTIGATION
& RIG POSITIONING

Near-Shore (Swamp) Site Characterization

PROJECT SHAWA_OTUMARA MANIFOLD-ONGOING PROJECT

Compliance

We are highly compliant with regulatory bodies to make sure that our job delivery is not in anyway stalled and also demonstrates professionalism and capacity.

- Corporate Affairs Commission (CAC)
- Nigerian Content Development and Monitoring Board (NCDMB)
- Value-Added Tax (VAT)
- Taxpayer Identification Number (TIN)
- Tax Clearance Certificate (TCC)
- Nigerian Content Equipment Certificate (NCEC)
- Nigerian Oil and Gas Industry Content Joint Qualification System (NOGIC-JQS)
- Nigerian Upstream Petroleum Regulatory Commission (NUPRC)
- Nigeria Social Insurance Trust Fund (NSITF)
- DUN&BRADSTREET
- Industrial Training Fund (ITF)

Our Partners

Our Clients

INTEGRATED AND ENGINEERING SERVICES PROJECTS	CLIENT
3D LASER SCANNING AND UTILITY DETECTION OLO FLOW STATION	Aradel
Project management, Construction of the pig launcher foundation and portacabin base for accommodation and camp site for the ATIL/WAV 20' x 23km pipeline installation and loading system	WAV/ATIL
Access Road Construction, Drainage and Stabilization of 1.9km access road from FLB base to GEIL terminal, Otakikpo	WAV/ATIL
CONSTRUCTION OF 1.2km STREET ROAD OF IDIGE(0.570km) & UDO STREET(0.630km) IN UROMI. ESAN NORTH EAST LGA, EDO STATE	NDDC
Fabrication of 15 number portacabin for accommodation and camp site for GEIL, ATIL and WAV personnel for the 20' x 23km pipeline installation and loading system.	GEIL/ATIL/WAV
Civil and Earthworks including excavation, trenching and stabilization works for the 20' pipe lay of the 2km onshore section of the pipeline at Otakikpo.	WAV
Erosion Control; 1.3km drain construction along Diamond close for Castle and Green Extate, Eneka Link Road, Port Harcourt.	Castle & Green
Civil and Foundation works for an installation of compression units, heavy-duty equipment and central processing facilities at Central Processing Facility Batan	WAV

INTEGRATED AND ENGINEERING SERVICES PROJECTS	CLIENT
Procurement and Haulage of 40ft x 30 nos. of Portacabin for accommodation facility at the ATIL Site Otakikpo	West African Ventures (WAV)
Procurement of 1000 number of foreign double bunk bed size 6ft x 3ft with all associated accessories	West African Ventures (WAV)
Procurement of 50 number 2HP Air Conditioner, 50 number of 32" LG television, 3 number 54" LG Smart television and accessories, 3 number 25kg washing machine, 20 number of 100 liters Nexus Chest refrigerator, 3 number of 32 liters Nexus Chest Deep freezer and other messing facility	West African Ventures (WAV)
Haulage of 20" line pipes for the 20" x 23km offshore pipeline and loading system Otakikpo	WAV/ATIL
Procurement of Civil Materials such as cement, sharp sand, granite, reinforcement bars, marine board, laterite etc. for construction of end facilities for the 20" x 23km offshore pipeline and loading system otakikpo	West African Ventures (WAV)
Procurement of 15 nos. of industrial Welding machines	Land and Marine
Procurement and Haulage of 16" schedule 120pt Coated line pipes	NPDC/NDPR
Procurement, Haulage and installation of 300 bags of Coubextran GP grout for external grouting of 4 no compressor units at Jones Creek flow station	NPDC/NECO NDE

GEOSOLUTIONS SERVICES PROJECTS	CLIENT
HI Offshore To Bonny (OTB) Development Project- Confirmatory Geotechnical Investigation	Dover
Geotechnical Investigation 2Obagi OB3	Total Energies
Provision of Geophysical, Geotechnical and Geohazard Survey Services at Ibom Field	Ibom Upstream Company
Provision of Wellhead confirmation Survey of Asasa West-1 Well	Subdrill Services Limited
Provision of Wellhead confirmation Survey of Ibom 01 and Ibom 02 Wells	Ibom Upstream Company
Provision of Geotechnical, Geophysical and Geohazard Survey Services at Escravos and Odidi Rivers for the alternative crude barging OML 42	NPDC/ Neconde
Provision of Inspection and Geophysical Survey Services for the 56km Warri to Escravos Pipeline.	NGPTC
Provision of Geophysical, Geotechnical and Geohazard Survey Services for the Brass Produced Water Project Location	NAOC

GEOSOLUTIONS SERVICES PROJECTS	CLIENT
Provision of Geotechnical and Geophysical Survey for the Gbaran phase 3b Uzu with CPF Upgrade	SPDC/Dover
Provision of Geophysical, Geotechnical and Geohazard Survey Services at Ororo 2 Location	Sirius Petroleum
Provision of Geophysical, Geotechnical and Geohazard Survey Services Along 12"X2.9 km Pipeline from CAW-3 to CAW-2 and 12:x47 km Pipeline from CAW-2 to FSO Location	ELI/Dover Engineering/ Eroton
Provision of Detailed Geotechnical and Geophysical Survey Services on Soku River	SPDC/Neconde
Provision of Geophysical, Geotechnical and Bathymetry Survey Services at Escravos OML 42	NPDC/Nestoil
Provision of Geophysical, Geotechnical and Geohazard Survey Services of Route for Odidi – Warri Gas Pipeline Expansion Project	NNPC/Dover Engineering
Provision of Pre-Dredge Hydrographic Survey of Egwa Field Pipeline Systems	NPDC/Neconde
Provision of Geophysical, Geotechnical and Geohazard Survey Services of 16" Pipeline at Jones Creek 30	NPDC/Neconde

Testimonials

Polaris is one indigenous company we are proud to partner. We are excited with their contributions to local content.

Engr. Simbi Wobote
Executive Secretary NCDMB

I am happy with your growth and innovations to the Energy Industry. Keep it up"

Hon. Timipre Sylvia
Minister of petroleum

I know when Polaris started, and they started small. Now they are one of the foremost survey company in Nigeria

Mr. Emeka Ene
CEO Oil Data Group

I am impressed at your Consistent growth. We enjoy working with your company

Mr. Abdulrazaq Isa
Chairman Waltersmith Petroleum Oil

I am impressed with your consistency. You have come a long way and equally insisted on quality delivery. Keep it up

Mr. Osa Owieador
MD Platform Petroleum Limited

Polaris's response rate is high, You can call on them at anytime, anywhere, any job

Mr. Abiodun Ogunjobi

Management Team

DR. CHIGOZIE DIMGBA
CEO/MD

NNENNA NDUBUISI
Chief Corporate Officer

ADAMU ALUMUM ISAAC
Chief Financial Officer

ANALIEFO NZEGWU
ED. Operations

LAYEFA CHITURU IGBE
Head, Business Development

UDUMA IKPA OBIANUJU
Project Administrator

BRIAN AKPOTOWO
Head, Digital Twin/Reality Capture

STEVE UBANI
Head, Field Operations
